

Vishnu Dass

Technical Content Marketer | GTM Engineer

Indian Citizen | creativevishnu1999@gmail.com | +91-7889899106 | [LinkedIn](#) | [Portfolio](#)

PROFILE

Technical content writer with 4+ years in B2B SaaS, now building hands-on GTM automation projects (Clay, n8n, Apollo, HubSpot) to move into GTM Engineering.

GTM PROJECTS

Zero-Touch Lead Enrichment & ICP Filtering

Built a Clay pipeline that enriches leads through a multi-provider waterfall (Apollo, Dropcontact, Hunter) and scores each one against ICP criteria using AI, syncing qualified leads to HubSpot.

Automated Lead Pipeline With n8n, Apollo, and Slack

Built an n8n workflow that deduplicates inbound leads against Apollo using exact email match, creates and enrolls new leads in an outreach sequence, and notifies sales in Slack in real time.

EXPERIENCE

Technical Content Writer | HeadSpin | *December 2024 – Present*

- Write marketing-led technical blogs that position HeadSpin's testing and performance offerings around real customer problems.
- Create product microcopy and in-app messaging that support onboarding, feature discovery, and product adoption.
- Produce product-focused documentation and launch content that explain features, workflows, and integrations for a non-technical audience.
- Standardize content frameworks and messaging guidelines to maintain consistency across marketing and customer-facing assets.

Technical Content Writer | OpsTree Solutions | *April 2024 – November 2024*

- Developed and executed content strategies aligned with BuildPiper's marketing goals and target audience.
- Created content for blogs, whitepapers, and case studies to highlight DevOps best practices.
- Conducted SME interviews to gather insights for workshops and technical collateral.
- Partnered with product and sales teams to shape messaging for new feature launches.

Content Writer | Grazitti Interactive | *February 2023 – March 2024*

- Wrote marketing collateral for Salesforce products and moderated global communities.
- Monitored content performance and optimized using keyword research.
- Collaborated with SMEs to break down complex technical information into user-friendly content.
- Maintained a consistent editorial voice across web, community, and campaign content.

Technical Content Writer | AblySoft | *April 2022 – February 2023*

- Produced blogs, eBooks, and HTML mailers tailored to diverse audiences.
- Authored end-user content, including demo scripts, troubleshooting guides, and onboarding materials.
- Edited and proofread guest posts by junior writers.
- Collaborated with product and support teams to keep onboarding content aligned with feature updates.

EDUCATION

B.Tech, Computer Science (did not complete final year)
